RE: EB Docket No. 06-36
Annual CPNI Certification

Dear Ms. Dortch:

In accordance with FCC Enforcement Advisory DA 10-91, attached is the annual CPNI certification filing covering the year of 2013, pursuant to 47 C.F.R § 64.2009(e), for Santel Communications.

Sincerely,

Ryan Thompson
CEO

Attachment

Marlene H. Dortch, Secretary
Federal Communications Commission

Annual 47 C.F.R. § 64.2009(e) CPNI Certification for 2013
EB Docket 06-36

Annual 64.2009(e) CPNI Certification for 2013

Date of execution: February 27, 2014

Name of Company covered by this certification: **Santel Communications
Cooperative, Inc.**

Form 499 Filer ID: 807864

Name of Officer signing: Ryan Thompson

Title of Officer signing: CEO

I, Ryan Thompson, certify that I am an officer of the Company named above, and acting as an agent of the Company, that I have personal knowledge that the Company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. See 47 C.F.R. § 64.2001 *et seq.*

Attached to this certification as Exhibit 1 is an accompanying statement explaining how the Company's procedures ensure that the Company is in compliance with the requirements set forth in section 64.2001 *et seq.* of the Commission's rules. This certification supersedes any earlier filings, to provide greater detail for the Commission's benefit.

The Company **has not** taken any actions (proceedings instituted or petitions filed by a company at either state commission, the court system, or at the Commission against data brokers) against data brokers in the past year. Companies must report on any information that they have with respect to the processes pretexters are using to attempt to access CPNI, and what steps companies are taking to protect CPNI.

The Company **has not** received any customer complaints in the past year concerning the unauthorized release of CPNI (number of customer complaints a company has received related to unauthorized access to CPNI, or unauthorized disclosure of CPNI, broken down by category or complaint, *e.g.*, instances of improper access by employees, instances of improper disclosure to individuals not authorized to receive the information, or instances of improper access to online information by individuals not authorized to view the information).

A handwritten signature in blue ink, appearing to be 'RTJ', is written over a horizontal line.

Santel Communications Cooperative, Inc.

STATEMENT EXPLAINING HOW THE COMPANY'S OPERATING PROCEDURES ENSURE COMPLIANCE WITH THE FCC'S CPNI RULES

I. Customer Proprietary Network Information ("CPNI")

CPNI is defined in Section 222(f) of the Communications Act as (A) information that relates to the quantity, technical configuration, type, destination, and amount of use of a telecommunications service subscribed to by any customer of a telecommunications carrier, and that is made available to the carrier by the customer solely by virtue of the carrier-customer relationship; and (B) information contained in the bills pertaining to telephone exchange service or telephone toll service received by a customer of a carrier (except that CPNI does not include subscriber list information).

Generally, CPNI includes personal information regarding a consumer's use of his or her telecommunications services. CPNI encompasses information such as: (a) the telephone numbers called by a consumer; (b) the telephone numbers calling a customer; (c) the time, location and duration of a consumer's outbound and inbound phone calls, and (d) the telecommunications and information services purchased by a consumer.

Call detail information (also known as "call records") is a category of CPNI that is particularly sensitive from a privacy standpoint and that is sought by pretexters, hackers and other unauthorized entities for illegitimate purposes. Call detail includes any information that pertains to the transmission of a specific telephone call, including the number called (for outbound calls), the number from which the call was placed (for inbound calls), and the date, time, location and/or duration of the call (for all calls).

Customers are notified on a bi-annual basis of their CPNI rights.

II. Use and Disclosure of CPNI Is Restricted

The Company recognizes that CPNI includes information that is personal and individually identifiable, and that privacy concerns have led Congress and the FCC to impose restrictions upon its use and disclosure, and upon the provision of access to it by individuals or entities inside and outside the Company.

The Company has designated a CPNI Compliance Officer who is responsible for: (1) communicating with the Company's attorneys and/or consultants regarding CPNI responsibilities, requirements and restrictions; (2) supervising the training of Company employees and agents who use or have access to CPNI; (3) supervising the use, disclosure, distribution or access to the Company's CPNI by independent contractors and joint venture partners; (4) maintaining records regarding the use of

CPNI in marketing campaigns; and (5) receiving, reviewing and resolving questions or issues regarding use, disclosure, distribution or provision of access to CPNI.

Company employees and agents that may deal with CPNI have been informed that there are substantial federal restrictions upon CPNI use, distribution and access. CPNI rules are reviewed on a regular basis with all employees that have access to CPNI. In order to be authorized to use or access the Company's CPNI, employees and agents must receive training with respect to the requirements of Section 222 of the Communications Act and the FCC's CPNI Rules (Subpart U of Part 64 of the FCC Rules). All new employees receive CPNI training prior to any access to CPNI.

Before an agent, independent contractor or joint venture partner may receive or be allowed to access or use the Company's CPNI, the agent's, independent contractor's or joint venture partner's agreement with the Company must contain provisions (or the Company and the agent, independent contractor or joint venture partner must enter into an additional confidentiality agreement which provides) that: (a) the agent, independent contractor or joint venture partner may use the CPNI only for the purpose for which the CPNI has been provided; (b) the agent, independent contractor or joint venture partner may not disclose or distribute the CPNI to, or allow access to the CPNI by, any other party (unless the agent, independent contractor or joint venture partner is expressly and specifically required to do so by a court order); and (c) the agent, independent contractor or joint venture partner must implement appropriate and specific safeguards acceptable to the Company to ensure the confidentiality of the Company's CPNI.

III. Protection of CPNI

1. The Company may, after receiving an appropriate written request from a customer, disclose or provide the customer's CPNI to the customer by sending it to the customer's address of record. Any and all such customer requests: (1) must be made in writing; (2) must include the customer's correct billing name and address and telephone number; (3) must specify exactly what type or types of CPNI must be disclosed or provided; (4) must specify the time period for which the CPNI must be disclosed or provided; and (5) must be signed by the customer. The Company will not provide CPNI to third parties without the customers' approval via the opt-in process. In such circumstances, the Company will disclose CPNI upon affirmative written request by the customer to any person designated by the customer, but only after the Company calls the customer's telephone number of record and/or sends a notification to the customer's address of record to verify the accuracy of this request.

2. The Company will provide a customer's phone records or other CPNI to a law enforcement agency in accordance with applicable legal requirements.

3. The Company retains all customer passwords and "shared secret" question-answer combinations in secure files that may be accessed only by authorized Company employees who need such information in order to authenticate the identity of customers requesting call detail information over the telephone.

4. Company employees authenticate all telephone requests for CPNI in the same manner whether or not the CPNI consists of call detail information. That is, Company employees must: (a) be furnished the customer's pre-established password (or correct answers to the back-up "shared secret" combinations); (b) send the requested information to the customer's postal or electronic "address of record" or (c) call the customer back at the customer's "telephone number of record" (see definition above) with the requested information.

5. If a customer subscribes to multiple services offered by the Company and an affiliate, the Company is permitted to share the customer's CPNI regarding such services with its affiliate. If a customer does not subscribe to any telecommunications or non-telecommunications services offered by an affiliate, the Company is not permitted to share the customer's CPNI with the affiliate without the customer's consent pursuant to the appropriate notice and approval procedures set forth in Sections 64.2007, 64.2008 and 64.2009 of the FCC's Rules.

6. When an existing customer calls the Company to inquire about or order new, additional or modified services (in-bound marketing), the Company may use the customer's CPNI other than call detail CPNI to assist the customer for the duration of the customer's call if the Company provides the customer with the oral notice required by Sections 64.2008(c) and 64.2008(f) of the FCC's Rules and after the Company authenticates the customer.

The Company discloses or releases call detail information to customers during customer-initiated telephone contacts only when the customer provides a pre-established password. If the customer does not provide a password, call detail information is released only by sending it to the customer's address of record or by the company calling the customer at the telephone number of record. If the customer is able to provide to the Company, during a customer-initiated telephone call, all of the call detail information necessary to address a customer service issue (*i.e.*, the telephone number called, when it was called, and, if applicable, the amount charged for the call) without Company assistance, then the Company may take routine customer service actions related to such information. (However, under this circumstance, the Company may not disclose to the customer any call detail information about the customer account other than the call detail information that the customer provides without the customer first providing a password.)

7. The Company uses, discloses, and/or permits access to CPNI in connection with Company-initiated marketing of services to which a customer does not already subscribe from the Company (out-bound marketing) only pursuant to the notice and approval procedures set forth in Sections 64.2007, 64.2008, and 64.2009 of the FCC's Rules. All proposed out-bound marketing activities are reviewed by the Company's CPNI Compliance Officer for compliance with the CPNI restrictions and requirements in the Communications Act and the FCC Rules.

8. The Company maintains appropriate paper and/or electronic records that allow its employees, independent contractors and joint venture partners to clearly establish the status of each customer's Out-out and/or Opt-In approvals (if any) prior to use of the customer's CPNI. These records include: (i) the date(s) of any and all

of the customer's deemed Opt-out approvals and/or Opt-in approvals, together with the dates of any modifications or revocations of such approvals; and (ii) the type(s) of CPNI use, access, disclosure and/or distribution approved by the customer. In general, the Company uses the Opt-Out method to request approval for marketing campaigns.

9. Before a customer's CPNI can be used in an out-bound marketing activity or campaign, the Company's records must be checked to determine the status of the customer's CPNI approval. Company employees, independent contractors and joint venture partners are required to notify the CPNI Compliance Officer of any access, accuracy or security problems they encounter with respect to these records.

Customer records indicate if they've chosen to Opt-Out of marketing campaigns and company retains CPNI notification and approval/denial records for at least two years. Company maintains a record of any marketing campaigns of its own or its affiliates that use customers' CPNI. These records are maintained for a minimum of one year. An outbound marketing review process is headed by the CPNI Compliance Officer.

If new, additional or extended approvals are necessary; the CPNI Compliance Officer will determine whether the Company's "Opt-Out CPNI Notice" or "Opt-In CPNI Notice" must be used with respect to various proposed out-bound marketing activities.

10. The CPNI Compliance Officer will maintain a record of each out-bound marketing activity or campaign, including: (i) a description of the campaign; (ii) the specific CPNI that was used in the campaign; (iii) the date and purpose of the campaign; and (iv) what products and services were offered as part of the campaign. This record shall be maintained for a minimum of one year.

11. The Company's employees and billing agents may use CPNI to initiate, render, bill and collect for telecommunications services. The Company may obtain information from new or existing customers that may constitute CPNI as part of applications or requests for new, additional or modified services, and its employees and agents may use such customer information (without further customer approval) to initiate and provide the services. Likewise, the Company's employees and billing agents may use customer service and calling records (without customer approval): (a) to bill customers for services rendered to them; (b) to investigate and resolve disputes with customers regarding their bills; and (c) to pursue legal, arbitration, or other processes to collect late or unpaid bills from customers.

12. The Company's employees and agents may use CPNI without customer approval to protect the Company's rights or property, and to protect users and other carriers from fraudulent, abusive or illegal use of (or subscription to) the telecommunications service from which the CPNI is derived. Because allegations and investigations of fraud, abuse and illegal use constitute very sensitive matters, any access, use, disclosure or distribution of CPNI pursuant to this Section must be expressly approved in advance and in writing by the Company's CPNI Compliance Officer.

13. The Company's employees, agents, independent contractors and joint venture partners may **NOT** use CPNI to identify or track customers who have made calls to, or received calls from, competing carriers. Nor may the Company's employees, agents, independent contractors or joint venture partners use or disclose CPNI for personal reasons or profit.

14. Company policy mandates that files containing CPNI be maintained in a secure manner such that they cannot be used, accessed, disclosed or distributed by unauthorized individuals or in an unauthorized manner.

15. Paper files containing CPNI are kept in secure areas, and may not be used, removed, or copied in an unauthorized manner.

16. Company employees, agents, independent contractors and joint venture partners are required to notify the CPNI Compliance Officer of any access or security problems they encounter with respect to files containing CPNI.

17. The Company may permit its customers to establish online accounts, but must require an appropriate password to be furnished by the customer before he or she can access any CPNI in his or her online account. Passwords may NOT be based upon readily obtainable biographical information (e.g., the customer's name, mother's maiden name, social security number or date of birth) or account information (e.g., the customer's telephone number or address).

18. Customers may obtain an initial or replacement password: (i) if they come in person to the Company's business office, produce a driver's license, passport or other government-issued identification verifying their identity, and correctly answer certain questions regarding their service and address; or (ii) if they call a specified Company telephone number from their telephone number of record, and then wait at that number until a Company representative calls them back and obtains correct answers to certain questions regarding their service and address.

19. The Company will notify customers immediately of all changes in their accounts, including those that may affect privacy or security matters.

a. The types of changes that require immediate notification include: (a) change or request for change of the customer's password; (b) change or request for change of the customer's address of record; (c) change or request for change of any significant element of the customer's online account; and (d) a change or request for change to the customer's responses with respect to the back-up means of authentication for lost or forgotten passwords.

b. The notice may be provided by: (a) a Company call or voicemail to the customer's telephone number of record; (b) a Company text message to the customer's telephone number of record; (c) a Company email to the customer's email/ebill address of record; or (d) a written notice mailed to the customer's address of record (to the customer's prior address of record if the change includes a change in the customer's address of record).

c. The notice must identify only the general type of change and must not reveal the changed information.

d. The Company employee or agent sending the notice must prepare and furnish to the CPNI Compliance Officer a memorandum containing: (a) the name, address of record, and telephone number of record of the customer notified; (b) a copy or the exact wording of the text message, email, written notice, telephone message or voicemail message comprising the notice; and (c) the date and time that the notice was sent.

20. Proper authorities will be notified of any CPNI breaches. The Company must provide an initial notice to law enforcement and a subsequent notice to the customer if a security breach results in the disclosure of the customer's CPNI to a third party without the customer's authorization.

a. As soon as practicable (and in no event more than seven (7) days) after the Company discovers that a person (without authorization or exceeding authorization) has intentionally gained access to, used or disclosed CPNI, the Company must provide electronic notification of such breach to the United States Secret Service and to the Federal Bureau of Investigation via a central reporting facility accessed through a link maintained by the FCC at <http://www.fcc.gov/eb/cpni>.

21. The Company will provide customers with access to CPNI at its retail locations if the customer presents a valid photo ID and the valid photo ID matches the name on the account.

22. The Company takes reasonable measures to discover and protect against activity that is indicative of pretexting including requiring Company employees, agents, independent contractors and joint venture partners to notify the CPNI Compliance Officer immediately by voice, voicemail or email of: (a) any suspicious or unusual call requesting a customer's call detail information or other CPNI (including a call where the caller furnishes an incorrect password or incorrect answer to one or both of the "shared secret" question-answer combinations); (b) any suspicious or unusual attempt by an individual to change a customer's password or account information (including providing inadequate or inappropriate identification or incorrect "address or record," "telephone number of record" or other significant service information); (c) any and all discovered instances where access to the Company's electronic files or databases containing passwords or CPNI was denied due to the provision of incorrect logins and/or passwords; and (d) any complaint by a customer of unauthorized or inappropriate use or disclosure of his or her CPNI. The CPNI Compliance Officer will request further information in writing, and investigate or supervise the investigation of, any incident or group of incidents that reasonably appear to entail pretexting.

IV. CPNI Compliance Officer

Our CPNI Compliance Officer oversees enforcement of all CPNI training and activities. In addition to the specific matters required to be reviewed and approved by the Company's CPNI Compliance Officer, employees and agents, independent contractors and joint venture partners are strongly encouraged to bring any and all other questions, issues or uncertainties regarding the use, disclosure, or access to CPNI to the attention of the Company's CPNI Compliance Officer for appropriate investigation, review and guidance. The extent to which a particular employee or agent brought a CPNI matter to the attention of the CPNI Compliance Officer and received appropriate guidance is a material consideration in any disciplinary action brought against the employee or agent for impermissible use, disclosure or access to CPNI.

V. Disciplinary Procedures

The Company has a defined disciplinary process in place for violations and/or breaches of any customer records containing CPNI. In particular, the Company has informed its employees and agents, independent contractors and joint venture partners that it considers compliance with the Communications Act and FCC Rules regarding the use, disclosure, and access to CPNI to be very important.

Violation by Company employees or agents of such CPNI requirements will lead to disciplinary action (including remedial training, reprimands, unfavorable performance reviews, probation, and termination), depending upon the circumstances of the violation (including the severity of the violation, whether the violation was a first time or repeat violation, whether appropriate guidance was sought or received from the CPNI Compliance Officer, and the extent to which the violation was or was not deliberate or malicious).

Violation by Company independent contractors or joint venture partners of such CPNI requirements will lead to prompt disciplinary action (up to and including remedial training and termination of the contract).
